Subject: Proposed asylum centre Bicester MOD
Date: 07 September 2026 13:33:28

[redacted]

I object strongly to this proposal. Building an asylum centre so very very close to the small village of Piddington where 46 children reside with their parents is very disturbing indeed. This is especially so as there's somewhere in the region of 1200 men being considered for housing there pending their cases. With freedom to come and go as they please.m!! In rural Buckinghamshire adjacent to a small village. This is potentially terrifying indeed. Facilities being provided like a gym, a place of worship, a small shop and other such for asylum seekers who have entered the UK ILLEGALLY, not with their wives or children or other family members?!
I am very supportive of the objections raised by the villagers of Piddington and the impact it will have on the lives of people who have chosen to live there. And also the fact that .. to date.. they have not been consulted at all.
Sincerely
