Subject: Site A Piddington Depot Bicester migrant centre plus staff NOT REQUIRED as 36,000 military homes and empty barracks just purchased from Annington Property Development Company for £5.7 billion after 30 years of renting this ex military Ministry of Defe[redacted]
Date: 07 September 2026 17:13:33

The UK Government in association with the Ministry of Defence repeatedly waste hundreds of billions of pounds of taxpayers money on terrible financial decisions 2 Aircraft Carriers no crew and fighter jets to be seen not enough support naval ships to protect the Carriers, Ajax troop carrier big flop, UK Submarines stuck in Scotland missiles that do not work, the list is endless send the MOD Boys to Italy they get proper value for there Euro. So here we go again loads of residential stock empty Paratroop Barracks at Farnborough ready to go instant housing could be secured properly 36,000 properties available why not look at them as you purchased them a few months ago. Just a little bit to try to help the situation on a subject that continues to grow beyond your imagination. Wrong Place Wrong Site seems to sum it up. Plus those 400,000 volt 2x Pylons and 24x power cables running over and alongside the housing area still seem a very dangerous location to expose EMF Radiation on a 24/7 housing basis these residents and staff deserve a safer location to live and work.
