[redacted]

1.3,500 asylum seekers dumped in a rural setting is a recipe for disaster. The site is next to a children's playground and opposite a children's football club, ages starting from 4.And about 1.5 miles from a primary school.
2.The utilities cannot cope as it is with water, and sewerage being overwhelmed and there's no spare electricity. To say generators will be used is ridiculous because of the cost of diesel and the environment.
3.There are no footpaths and Thame Road is a busy road .
4.The surrounding villages will be affected as both Ambrosden and Arncott have small village shops which will be overwhelmed.
5. Having seen newspapers and news women and children will be at risk of being attacked and children will no longer be able to play outside without adult supervision and females won't be able to walk their dogs, at present living in the country we are able to safely walk alone in fields and woodland we won't be able to do this anymore, and also females will not be able to go running.
