Dear Secretary of State,

I am writing as a member of the public to object to planning application PCU/RARE/C3105/3378843, the proposed 1,256-person asylum accommodation centre at Site A, MOD Bicester, Bicester Garrison, Launton Road, Oxfordshire, OX25 1AE.

I request that planning permission be refused.

First, I simply pray you choose not to commit this unfathomable offence against the women of Piddington.

I have concerns about the completeness of the evidence submitted with the application. There is ecological and technical work which remains outstanding. As well as this there are significant questions remaining around fire safety, ground conditions and the suitability of the site.

I am particularly concerned about the lack of thorough investigation into ground contamination. Previous land-quality work identified potential contamination issues, yet no borehole investigation has been carried out to resolve those risks.

There are also substantial flooding and drainage concerns. Parts of the site are at very high risk of surface-water flooding and aspects of the drainage strategy remain unreliable and unresolved.

The transport evidence also raises serious questions. The Transport Assessment repeatedly refers to the wrong road, while the B4011 serving the site has very limited pedestrian infrastructure and a recorded history of serious collisions.

The application has not demonstrated a confirmed permanent solution for core infrastructure such as electricity and wastewater. I do not believe a development accommodating up to 1,256 people should be approved while such fundamental matters continue to be unresolved.

The proposal is also exceptionally large for an isolated rural location with minimal surrounding infrastructure, very limited public transport and practically no services within walking distance.

I am concerned that the extremely short representation period does not provide sufficient time for residents, councils and specialists to properly examine such a substantial and complicated application. The application documents run to well over 1,000 pages across multiple technical disciplines, and it is not reasonable to expect them to be read and properly considered in such a short time. Ordinary planning applications carry a minimum 21 day period, and the standard Crown Development route prescribes 21 days at every stage, so I ask that the representation period be extended to at least 21 days from 7 September 2026, to Monday 28 September 2026, since the 21st day falls on a Sunday.

This site has also previously been considered for asylum accommodation. A smaller proposal was refused by an independent Planning Inspector before subsequently being cancelled.

Considering all these listed reasons, I do not believe the application has demonstrated that Site A is a suitable location for a development of this huge scale.

I therefore request that planning permission be refused.

If the Secretary of State is still minded to approve the application, I ask that no decision is made until outstanding work concerning drainage, flooding, wastewater, contamination, ecology, highways, pedestrian safety, power supply, lighting, noise, fire safety and decommissioning has been completed and made available for proper scrutiny.

Yours,

Sian Davies
