You don't often get email from [redacted] Learn why this is important

Dear Sirs

I am writing as a local resident to object to this application for an asylum centre proposed on Site A Arncott Oxon
I understand this is to house approx1,250 young male asylum seekers from unknown destinations who will be free to roam around the local area with no way of controlling or tracking them. Site A is a run down 1940's military storage establishment with no facilities for this use, including, transport, security, sewerage disposal, sanitation and basic infrastructure of any kind. The local police, NHS, county council, highways and education facilities are already overloaded and underfunded for the existing population, who provide tax revenue to support everything. I would strongly suggest the decision makers in London A/visit the site and B/ document their responsibility for this action in order for them to face any future consequences of this reckless decision.
