You don't often get email from [redacted] Learn why this is important

These are my representations on MOD Bicester Site A PCU/RARE/C3105/3378843.

The use of this site for asylum seekers will impact the lives, movements and safety of local residents unless the movements of the persons housed there are restricted.

Article 31(2) of the Refugee Convention 1951 allows the UK to impose necessary restrictions on the movements of the persons who will be housed at MOD Bicester Site A, and under national law the Secretary of State has power to impose conditions on asylum seekers, including where they can go and to impose curfews.

Conditions should be put on any grant of planning permission for MOD Bicester Site A which ensure that the persons housed at the site are prevented from entering the bounds of any local village and any personal residence within 4 miles of the site. This is necessary to ensure safety, privacy and normal life for the residents of the rural area.

Yours faithfully

Alison Golding
