You don't often get email from [redacted] Learn why this is important

Dear Secretary of State,

I am writing as a member of the public to object to planning application PCU/RARE/C3105/3378843, the proposed 1,256-person asylum accommodation centre at Site A, MOD Bicester, Bicester Garrison, Launton Road, Oxfordshire, OX25 1AE.

I ask that planning permission be refused on the following issues

- no solution for fire safety & ground conditions
- no solution for electricity and wastewater
- significant flooding and drainage concerns.
- limited public transport and nothing for entertainment in the area
- the presence of rare & endangered bats living within the site
- the pure scale of 1256 men to only 300 local residents

The transport evidence is my main concern. I personally drive up and down the B4011 most days for work purposes and feel very strongly about the fact they will be free to roam up and down this road taking them into town. There are no safe pedestrian roots and they will be walking up and down the main road to escape the prison like facilities if they are free to roam. The Transport Assessment repeatedly refers to the wrong road, while the B4011 serving the site has limited pedestrian infrastructure and a recorded history of serious collisions.

This site has also previously been considered for asylum accommodation. A smaller proposal was refused by an independent Planning Inspector before subsequently being cancelled.

Taken together, these issues mean I do not believe the applicant has demonstrated that Site A is a suitable location for a development of this scale.

I therefore respectfully request that planning permission be refused.

If the Secretary of State is nevertheless minded to approve the application, I ask that no decision is made until outstanding work concerning drainage, flooding, wastewater, contamination, ecology, highways, pedestrian safety, power supply, lighting, noise, fire safety and decommissioning has been completed and made

available for proper scrutiny.

Yours faithfully

Patricia Worthington
