application reference PCU/RARE/C3105/3378843

To whom it may concern : this is my statement of why I believe this planning application is totally wrong

The reasons why I am strongly objecting to the planning application is :-
a)no utilities at all,

b)that is on a main road with no pavements;

c) the amount of species on the site which are supposed to be protected – and obviously won't be.

d)no consultation with any local residents building up to this

e) the vast cost to the tax payer of this totally unsuitable site for this purpose.

Regards

Derek joy
