[redacted]

[redacted]

Dear Sir/Madam,

Please find attached a written representation that I have prepared in respect of the above referenced Planning Application.
Having reviewed a number of documents in the planning application pack, there are a significant number of matters raised in this review that should be addressed as a part of the planning application process.
This review draws on my personal experience of having worked for [redacted] in the energy and infrastructure business segments, executing similar projects to that proposed.

Any queries regarding the attached, please let me know.

Regards

John Chappell
