> You don't often get email from [redacted] Learn why this is important

Good morning,

I am writing in the hope of trying to persuade the Home office to not go ahead with the planned asylum Centre at Mod Bicester site A.

My main reason for objecting to the proposal is safety. I live in [redacted] away.
Knowing that over 1,250 men, mainly young men are a few miles down the road would make me feel nervous about walking out on footpaths and fields surrounding the village on my own [redacted] I have [redacted]. There is nothing for them to do around the village apart from being outdoors and they like running for excercise. However knowing the risks they would not be able to do this if the proposal went ahead. It would restrict how we are able to safely live our everyday lives. This would ofcourse not just affect us, but many more. Many living closer.

It cant be acceptable that our freedom and safety should be compromised and destroyed. This is our home. Everyone deserve to be be able to feel safe in their own home.

Ofcourse, I am aware that not every asylum seeker is dangerous. But it is an undeniable fact that they most likely have grown up in countries where culture and attitude towards woman are very different in a way that does not represent safety for woman and girls they may come across on their own. Many of them are undocumented, we dont know their history. The camp would be bigger than the nearest villages. With free rein of the nearby area, what could a very likely sexually frustrated, stressed, angry, lonely man with do when meeting a defenceless woman or girl out for a walk or run? No witnesses, no cctv, completely unprotected. It doesn't bear thinking about, but we must to make sure it cant happen.

The plans must not go ahead and see woman and girls be put at risk.

Yours sincerely
