[You don't often get email from [redacted] Learn why this is important at [redacted]

Dear Sirs,

I wish to register an objection to the above proposed change of use.

The objections and observations are as follows:

* whilst additional welfare facilities are planned, they appear to be entirely inadequate for the proposed initial numbers, particularly as there is a declared intent to allow this facility to be expanded over future years.

* it is strongly likely that the occupants will also conclude that the facilities available will be inadequate and will therefore elect to leave the site and travel to local villages, this will put a huge burden on these villages. The closest village of Piddington currently has circa 350 residents and so to have 1,250 additional people using these facilities is unrealistic.

* this is particularly relevant for the safety of the women and children in this area. ANY offence committed in this area will be unacceptable. However if there are any rapes or murders then this will be on YOUR conscience. Remember if these occur and you dismissed this circumstance I can assure you it will impact your own wellbeing as it will have been YOU that will have to accept responsibility this horrendous situation. I leave it to you to be content that you have approved this consequence. I hope you can live with yourself.

* also to choose Bicester which has seen phenomenal growth in terms of housing over the past few years without a commensurate increase in the local infrastructure, particularly GP's. Until this infrastructure is invested in it would be inadvisable to add additional demands in the form of people that are most likely to use these services. Once that investment is made then this proposal could be reconsidered.

Thank you for your consideration.
