[redacted]. Learn why this is important

PCU/RARE/C3105/3378843

As a resident of one of the villages near Piddington, knowing the area through involvement with the [redacted] I hereby object to the proposal to build a facility to house ca. 1500 male asylum seekers at the old MOD site A near Piddington.

I echo objections held by Piddington residents such as

- **Lack of Facilities:** The site and village have no shops, pubs, or employment opportunities for the residents, with water and sewage requiring transport by truck.
- **Safety Fears:** Female residents, who would be outnumbered ten to one by the incoming male population, have expressed fears for their safety, particularly given the site's proximity to a children's park which is itself slightly isolated from the main village..
- **Security Concerns:** The accommodation is not a secure detention facility, meaning residents would be free to come and go, raising worries about community integration and crime.

Yours faithfully,

[redacted]
