Subject: Objection to planning application PCU/RARE/C3105/3378843, Site A, MOD Bicester

[redacted]

Dear Secretary of State,

As a local resident, I wish to object to planning application PCU/RARE/C3105/3378843, the proposed 1,256-person asylum accommodation centre at Site A, MOD Bicester, Bicester Garrison, Launton Road, Oxfordshire, OX25 1AE.

I ask that planning permission is refused.

I have read the concerns about the application and agree that the evidence submitted with the application is seriously flawed. The ecological and technical investigations are unsatisfactory. There is no evidence that the site is suitable or safe and the ground conditions have not been investigated.

I gather that there is a strong likelihood of ground contamination which has not been fully investigated as no borehole investigation has been carried out to assess the risks.

There are also a significant flooding and drainage risk as I understand that part of the site are at high risk of surface-water flooding and there is inadequate drainage.

I gather that the Transport Assessment refers to the wrong road. The B4011 which serves the site is not suitable for pedestrians and there is a history of serious accidents.

I understand that electricity and wastewater issues remain unresolved so a development to accommodate 1,256 people should not be approved. I am concerned that the cost to make the site fit for purpose will be extortionately high,

The proposal is too large for an isolated rural location. There is inadequate infrastructure, public transport and very few services within walking distance.

The representation period is not long enough to properly investigate the serious shortcomings of the proposal. Residents, councils and technical specialists need more time properly consider such a large and complicated application which I gather is over 1,000 pages. It is unreasonable to expect all interested groups to give proper consideration in such a short a time. A normal planning application takes 21 days and the standard Crown Development route is allowed 21 days at every stage. The representation period should be extended to an absolute minimum of 21 days from 7 September to Monday 28th September 2026. For proper consideration, much more time that is needed.

This site has been previously refused permission for an asylum by an independent Planning Inspector and any further applications should also be refused.

I do not believe the applicant has demonstrated that Site A is a suitable location for a development of this scale.

I therefore respectfully request that planning permission be refused.

I ask that no decision is made until outstanding work concerning drainage, flooding, wastewater, contamination, ecology, highways, pedestrian safety, power supply, lighting, noise, fire safety and decommissioning has been completed and made available for proper scrutiny.

Yours faithfully,

[redacted]
