**Subject:** Objection to planning application PCU/RARE/C3105/3378843, Site A, MOD Bicester

[redacted]

Dear Secretary of State,

I am writing as a member of the public to object to planning application PCU/RARE/C3105/3378843, the proposed 1,256-person asylum accommodation centre at Site A, MOD Bicester, Bicester Garrison, Launton Road, Oxfordshire, OX25 1AE.

I ask that planning permission be refused.

I have concerns about so much of the planning application that appears to be scant in its attention to the details that a range of planning applications of this size needs to cover. Not least:
- investigation of the land and soil contamination
- surface water flooding
- thorough highways assessment of the A4011 and safety of walkers and road users in various scenarios given the lack of pavements
- sanitary issues regarding waste water collection and management for a significant number of people

But over and above all those concerns, I object to the method of decision making, the lack of local consultation, the ignoring of local concerns and the the rushed manner of the process.

I want to register my objection to the ability without thought that the government has shown to destroy the peace of mind of the people of Piddington, to undermine their way of life and to impose a disproportionate solution on this small population.

This type of almost authoritarian decision making is a concern for the whole country. It must be resisted otherwise we set a precedent for more adverse conditions to be imposed on a powerless population.

I understand that this site was previously considered for asylum accommodation and a smaller proposal was refused by an independent Planning Inspector before subsequently being cancelled.

Taken together, these issues mean I do not believe the applicant has demonstrated that Site A is a suitable location for a development of this scale.

I therefore respectfully request that planning permission be refused.

If the Secretary of State is nevertheless minded to approve the application, I ask that no decision is made until outstanding work concerning drainage, flooding, wastewater, contamination, ecology, highways, pedestrian safety, power supply, lighting, noise, fire safety and decommissioning has been completed and made available for proper scrutiny.

Yours faithfully,

[redacted]
