Subject: Objection to application PCU/RARE/C3105/3378843 — MOD Bicester Site A

[redacted]

Dear Secretary of State,

I am a resident of a village close to [redacted] and object to application PCU/RARE/C3105/3378843 for accommodation for up to 1,256 people at MOD Bicester Site A.

My objection concerns the scale and suitability of this isolated rural site, rather than the personal characteristics of those who might be accommodated there.
The application appears premature because important matters remain unresolved, including safe pedestrian access, road safety, public transport, flooding and drainage, wastewater and electricity capacity, possible ground contamination, ecology, emergency services and the effect upon nearby small rural communities.

I am particularly concerned that placing up to 1,256 people at this location would be wholly disproportionate to the surrounding settlements and existing infrastructure. The application has not demonstrated convincingly that local health, policing, transport and other essential services can support it safely and sustainably.

I also question whether the "urgent" procedure is justified, given reports that the proposal had been under consideration for many months. An eleven-day representation period is plainly inadequate for residents and technical specialists to scrutinise more than 1,000 pages of documentation. I therefore request that the application be refused or withdrawn. At minimum, the consultation should be extended and no decision taken until all outstanding surveys and infrastructure assessments have been completed and publicly examined.

Yours faithfully,

[redacted]
