Subject: Objection to planning application PCU/RARE/C3105/3378843, Site A, MOD Bicester

[redacted]

Dear Secretary of State,

I am writing as a member of the public to object to planning application PCU/RARE/C3105/3378843, the proposed 1,256-person asylum accommodation centre at Site A, MOD Bicester, Bicester Garrison, Launton Road, Oxfordshire, OX25 1AE. I ask that planning permission be refused.

I live in one of the next villages, [redacted] with my t[redacted]he proposal is concerning for me for a number of reasons.

Firstly, I believe the number proposed is unsuitable for the selected location. The number proposed grossly outnumbers the closest village, Piddington, whilst also matching the number in our village, the next nearest. There is no increased infrastructure around to support an increase of 1200 plus males. It is unfair to house asylum seekers in such a rural location, where they will need access to suitable services, or at the very least a safe path to walk on. I do believe that it is a mistake to choose such rural locations for asylum housing, both as it will have a bigger proportionate impact on smaller local villages and communities, but also for the asylum seekers themselves who will need access to services, support and more infrastructure than our small village with one shop, a park and a green can offer.

I chose to live in [redacted] as a safe rural area to raise my children and I'm worried about the impact of the housing on my children's childhood. My concerns are not based on nationality or race, but the sheer number of proposed being housed, with nothing to do. I believe the number housed should be proportionate to the surrounding population.

Large scale accommodation requires security, full management plans, both for those being housed and the local community. I don't feel that we have had sufficient information or reassurance that the appropriate measures will be put in place.

I support asylum seekers, and have been disappointed at some of the local response to the asylum seekers housing. However, I do believe the current proposed plan is not suitable for either our small community or the asylum seekers themselves.

With kind regards,
[redacted]
