Hello

I understand that comments on the proposal to house 1250 adult male migrants on the site of Bicester Garrison, Piddington can be sent to this email address before 17th September.

Andy [redacted] Burnham and his team absolutely make me sick. I live nowhere near the proposed site, but the whole thing stinks of gerrymandering! In other words, Burnham's government is stuffing these unwanted migrants in places where the fewest labour voters live.

Thus they refuse to do anything about this slow but ceaseless migrant invasion of this now pathetic country and instead engineer the replacement of migrants to have as little effect as possible on the Labour vote.

They are actually proposing to dump 1250 adult [redacted] young men right next to a tiny village of about 350 people! It is beyond outrageous.
