Subject: Objection to PCU/RARE/C3105/3378843 i
Date: 16 September 2026 14:19:45

[redacted]

Dear Secretary of State,
I object to planning application PCU/RARE/C3105/3378843 at MOD Bicester Site A, MOD Bicester, Bicester Garrison, Launton Road, Oxfordshire, OX25 1AE.

A smaller proposal has already been refused by an independant planning inspector and cancelled.
The application document is over 1000 pages, The representation period is 11 days. This is unreasonable, normal planning permission requires a mimimum of 21 days. The application was submitted on 6th July and published for comment on 2nd sept, nearly 2 months. Councils, residents and technical specialists should be given more time to look through this application.
The National audit office findings of March 2024 expected the Home Offices large-sites asylum accommodation was expected to cost more than the hotels it was intended to replace.
There are flooding and drainage concerns.
The transport assessment repeatedly refers to the wrong road. The B4011 serving the site has a history of serious collisions.
I don't have an NHS dentist in Bicester and I've been trying for years. It takes weeks to get a Drs appointment. I have to wait a long time when I go to And E. Our health services are already overloaded. I understand that hospital care will not be provided on site and I am concerned about the extra demand on our existing healthcare services.
I enjoy walks in the area and the wildlife is important to me. The ecological consultant says that
ts survey cannot be considered a comprehensive assessment, while species surveys remain outstanding. The objection evidence also identifies missing biodiversity and fire-safety information.

There are many more concerns, therefore
I respectfully ask that planning permission is refused.

Yours faithfully
