RE: PUBLIC CONSULTATION NOTICE ,PROPOSED CROWN DEVELOPMENT: SITE A, MOD BICESTER, Proposed Home Office asylum accommodation (single adult men),
Application reference: PCU/RARE/C3105/3378843

Dear Sir/Madam
We are not residents of 'Piddington' however, we have been following the news on the terrible plight of the good people there and the absolutely desperate measures they have had to take to get the Government to listen to them and so we wish to lend our support albeit to ask the Government to please listen to the very valid and genuine worries and concerns of the people in that area. We are certain this landmark appeal to the Government by the people of Piddington is in our opinion a taste of things to come from other communities across the UK who may have the same situation forced upon them by Government with no thought whatsoever for their genuine feelings and grave concerns for their and their family's safety, by bringing in illegal migrants to their village or town who have allegedly not been checked for criminality. We would personally be deeply concerned ourselves if we also lived in a small, quiet village to then learn of over a thousand unchecked illegal migrants coming to live there. Countless citizens in the UK who have these truly genuine concerns are not racist or far right which is what they have unjustly been labelled as, which in our opinion is a disgusting scapegoat by Government who have turned a blind eye to the British people's concerns in order to fulfil their own agenda.

We find it extremely disturbing that Government are now giving out a nine page guidance booklet and posters to asylum seekers arriving illegally in this country that explicitly state that rape, sexual assault and child abuse are illegal in the UK. This in our opinion is an appalling admission by Government that there is a very serious problem with illegal migrants.

The UK have always helped genuine asylum seekers and so we should, but illegal immigration is a completely different matter and is being forced upon the people of this country and has been for many years and now as a result of not being listened to by Government, the people are now vehemently protesting in towns and cities across the UK because they have had enough and have now reached beyond boiling point.

The UK needs to come out of the ECHR immediately and take proper action to close our borders to all illegal migrants. We supposedly live in a democracy, something our forefathers fought for tragically with their own lives and yet our country has now become an unrecognisable place, a tyrannical and dictatorial country with no consideration for the indigenous people who are rightly concerned about bringing in thousands upon thousands of illegal migrants year on year who we do not know anything about and therefore putting us all at risk. Our forefathers

must be turning in their graves! This is why the people of Piddington and indeed the rest of the UK are so very concerned.

We pray that those who will make decisions for the people of Piddington will listen intently to those good people and ultimately do the right thing by them. We fully support the people of Piddington who have had to go to extreme legal measures to be listened to which in itself in our opinion is absolutely outrageous.

We hope you will receive many, many more letters in support of the genuine concerns of the people of Piddington and we wish them the greatest of luck in their vital endeavours to protect their community.

On a final note, the first and most fundamental duty of the UK Government is national security and keeping the public safe from external and internal threats, it is therefore the moral duty of care for any Government to do this for its people! Tragically the Government has not done this for many years and the British people are now rightly resisting.

"The only thing necessary for the triumph of evil is for good men to do nothing".- Edmund Burke

Thank you for listening.
