You don't often get email from [redacted] Learn why this is important

To whom it may concern.

I am writing to express my objection to this proposal.

The proposal is not fully formed and provides insufficient evidence that this site can be made suitable quickly and efficiently enough to provide the cost savings it seeks to achieve through avoidance of accommodating asylum seekers in hotels and HMOs.

I believe the proposal does not demonstrate that this site provides a viable solution to the current problem.

I also believe that no amount of money could make this rural location suitable to meet the needs of these people, whilst maintaining reasonable, measured impact on surrounding communities.

In order for this proposal to be fit for consideration (let alone approval) more details are required about
- mitigation of quantified pressures on local public services (health, transport, policing)
- mitigation of quantified impacts on the environment
- a complete cost analysis proving viability in comparison with the current solutions (hotels & HMOs)

Thank you for taking my comments into consideration in your decision-making.

I sincerely hope the ministry will reconsider whether it is truly in the best interests of the UK taxpayers and the asylum seekers to proceed with this plan.

Yours faithfully,

[redacted]
Resident and parish councillor
