You don't often get email from [redacted]. Learn why this is important

Dear Team,

I am writing to formally register my strong opposition to the Government's proposal to establish large-scale asylum accommodation at the MOD Bicester site.

This proposal is deeply unsuitable for our area.

The local road network, healthcare services, and utility infrastructure are nor equipped to support a facility of this scale. Important details regarding utility capacities remain unclear in the application documents. The site lacks safe walking routes, pavements etc. There are also ecological concerns re risks to protected species.

Placing an isolated, large-scale institutional facility next to small rural communities such as Piddington fails to support proper community integration and places an undue burden on rural areas with very limited local amenities. There are also severe safety concerns and risks of public disorder.

The use of 'nationally important and urgent' planning route has severely curtailed the time and transparency required for proper public consultation and scrutiny.

This planning application has been objected by the local authorities / administration – Cherwell District Council and Oxfordshire County Council, and should be rejected.

With kind regards,

[redacted]
