[redacted]

Dear Sir/Madam,

We are completely opposed to this application on the basis of the infrastructure that Bicester has available to it. The town is already at its limits and [redacted] don't have a main hospital. Rather invest in a hospital for Bicester urgently. That is a far greater priority for the place than any asylum centre. All the medical centres are at capacity, there are a handful of pharmacies and town centre is already in decline.

The village of Piddington is very small, this move would decimate it. Forcing this asylum centre on Bicester will devalue properties and further drag the town down the "places to live rankings", driving what little wealth we have here out.

The view is shared by all adult members of our household.

Sincerely,
Nico, Beverley & Linda
