Subject: PCU/RARE/C3105/3378843 - Piddington MOD Site
Date: 11 September 2026 08:23:22

[redacted]

Dear Sir/Madam,

I am writing to express my objection regarding the proposal to accommodate up to 1,256 asylum seekers at the former MOD Bicester Site A near Piddington.

My concerns are not directed towards the individuals who may be housed at the site, but rather whether the proposal has been adequately assessed and whether the surrounding infrastructure is capable of supporting a development of this scale.

In particular, I would appreciate clarification on the following points:

1. Whether local healthcare, emergency services, utilities and transport networks have been independently assessed for the proposed occupancy levels.
2. Why planning documents have reportedly contained references to accommodation for 3,510 service users, whilst the public proposal relates to 1,256 occupants.
3. Whether all ecological, environmental and drainage assessments have been completed and published.
4. What specific measures will be implemented to address pedestrian safety between the site and nearby communities.
5. What ongoing consultation arrangements will be available to residents and parish councils throughout the decision-making process.

Given the significant impact this proposal could have on neighbouring communities, I believe it is essential that all supporting evidence is made publicly available and that local concerns are fully addressed before any final decision is reached.

I would welcome a detailed response to the points raised above.

Yours faithfully,

Scott Bagley
