[redacted]

Hello,

I believe that the proposed housing of asylum seekers in Bicester puts the whole area in jeapordy,There are no service's to the proposed location which will cost a lost more money from tax payers again,They are illegally in this country and predominantly young men not families,We are all worried about our own family with this proposal,Just believe they should be sent back to there own country and stop wasting my tax money,

Regards Stuart Hetherington
