Re: Planning objection to the proposal for change of usage at Piddington MoD site to a Asylum Centre

My name is [redacted]

I object to this proposal on the grounds of community safety and safeguarding.

Given the scale of the proposed development and its rural location, I do not believe the application adequately demonstrates that potential safeguarding and community safety impacts have been properly assessed.

There may be uncertainty regarding the backgrounds and circumstances of some future occupants. This is not an assertion that individuals present a risk, but raises a legitimate question about whether sufficiently complete and verifiable information will be available to enable robust risk assessments.

Until these matters are satisfactorily addressed, I do not believe the development should be approved.

Many thanks
