Best start in life

Earlier **intervention** and **support** should help more children arrive at school **ready to learn.**

Preparing young people for life

Every learner should have a **clear route into work** through **academic, technical** and **practical** pathways.

Education and work

Every young person should benefit from **meaningful work experience,** high-quality **careers guidance** and **connections with employers** before they leave education.

More routes after 18

A stronger **further education and skills system** should open up more routes into **technical education, apprenticeships** and **work-based learning.**

Double Apprenticeships

We should **double** the number of young people accessing **high-quality apprenticeships** over the next decade.
